Stint Ireland

Under The Weather Guide

This guide is designed to make it easy for you to know what course of action to take when you are suffering with anything from a mild fever to feeling really sick. We recommend using Under The Weather for checking symptoms and other useful medical information. Lastly, in each of the Stint houses there is noticeboard in the common area. On these noticeboards you will find the contact details and addresses for the closest medical professionals and hospital to each house. And always remember, you can contact one of the Stint team if you need any help too.

Slightly ill?

Visit your nearest pharmacy and ask the pharmacist for advice. Buy any recommended over-the-counter medication.

Seriously ill?

Visit your nearest General Practitioner . It will cost an estimated €60 to have a consultation with a doctor so remember to hold on to the receipts so you can claim it back at a later stage.

Where is the nearest pharmacy or GP?

You can either use the information on the noticeboard in the Stint house or visit the Health Service website to identify the nearest pharmacy or GP to your house or office.

Out of working hours?

If you need to see a doctor on Monday- Friday between 6pm-10pm or Saturday-Sunday between 10am-6pm, you can call **Dub Doc: 01- 663 6869**.

Want to file a medical claim?

Visit Volunteer Card for the steps and remember to keep all your receipts!
